

## **REMARKS**

Claims 36-62, 65, 68, and 72-89 are currently allowed. Claims 65 and 68 have been amended to correct antecedent basis issues and minor informalities. No new matter has been added by these amendments. The claims are believed to be allowable.

### **Telephone Interview Summary**

Applicant's representative conducted a telephone interview with Examiner Richman on October 22, 2009. The parties discussed amending claims 65 and 68 to fix antecedent basis issues. The claims referred to "the display device". Applicant's representative proposed amending claims 65 and 68 to change "the display device" to "a display device". The Examiner indicated that these changes were acceptable and would be entered.

### **Reasons for Entry of Claim Amendments Under 37 CFR 1.312**

#### **(A) why the amendment is needed.**

Claims 65 and 68 have been amended to fix the antecedent basis issues with the term "the display device." The claims have been amended so that "the display device" now reads "a display device."

#### **(B) why the proposed amended or new claims require no additional search or examination.**

The scope the claims have not changed and therefore no additional search or examination is necessary.

#### **(C) why the claims are patentable.**

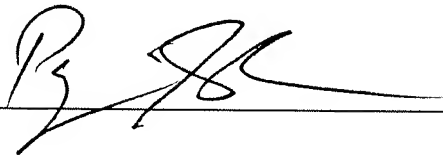

The claims should be patentable for at least the same or similar reasons stated in the previous office action responses since the scope of the claims have not changed.

(D) why the amendments were not presented earlier.

The use of the term “the” instead of “a” was an inadvertent mistake.

Respectfully submitted,
